

CHURCHES

LUTHERAN CHURCH.

On Easter Sunday at 2:30 o'clock in the afternoon the Lutheran church has German service. Holy Communion will be celebrated.

F. DROEGEMUELLER, Pastor.

METHODIST CHURCH.

Next Sunday being Easter, the close of the Lenten season, is considered to be the most important day of the church year. It expresses the hope of the Christian. Upon the resurrection story the church of Jesus is built. We meet on Sunday, the first day of the week, for our religious worship, because on this day, Christ rose from the dead. Our invitation is to all whose lives have been darkened with the clouds of mortality—and that includes us all—to join in the Easter service and let the gladness of the hope of immortality dispel the shadows.

At our morning service the Knights Templars will attend our church in a body. The pastor will speak on, "The Risen Christ."

At 7:30 in the evening the choir will give a musical program entitled, "The Disciple."

We ask our people to keep in mind the special Easter offering to be brought in the Easter envelopes given out last Sunday. If you did not get one, ask for one when you come to church next Sunday.

M. C. SMITH, Pastor.

BAPTIST CHURCH.

With the exception of Monday our pre-Easter services have been well attended. They close tonight with a sermon on "The Crucifixion; or the Significance of Good Friday." Two have presented themselves for membership this week so far and several more have promised to celebrate Easter right by giving themselves to Christ and his church. Baptism will be observed Sunday.

The men are continuing studying the topic, "what shall become of the people who have never heard the gospel, at the judgment day?" Come, we meet at 10 o'clock.

The pastor has appointed Mrs. Charles Fuller as chorister for the coming year. The choir was entertained at the home of Alta Young last night. Valetta Hacker is appointed as

assistant to the cradle-roll superintendent.

Music and sermons Sunday are in keeping with the Resurrection of our Lord. Let us make it the best we have had yet, by all turning out to fill the services.

Some think that the services should extend to at least through next week, but we close them Sunday evening. Remember all services have been placed a half hour later. Young people, 7:00; Sermon, 8:00 in the evening.

We look for several additions this Lord's day. Don't forget to come to the friendly church with that friendly grip, and the orchestra that accompanies every song. We seek to make our services entertaining as well as profitable.

B. J. MINORT, Pastor.

CHURCH OF CHRIST

Easter Sunday will be observed beginning with the sunrise prayer meeting at 5:30 a. m. This will be under the auspices of the Endeavors. At ten o'clock the Bible school will convene. The attendance should break all former records. The communion and preaching hour is from eleven o'clock until noon. The subject for the sermon is, "Hope Brought to Light." Special numbers of music will be rendered by the choir. Following the C. E. prayer meetings in the evening, the Easter program will be given by the Bible school. Let us make a special thank offering in the morning for the local church and in the evening for the benevolent work in support of the orphanages and Old Folks' Homes. The male quartet, consisting of the following gentlemen, Shellenberger, Irwin, Dingey and Epler will sing at the evening program.

These announcements speak for themselves. You are invited to come to the church with a message and a welcome.

STEPHEN J. EPLER, Minister

CHRISTIAN SCIENCE.

First Church of Christ, Scientist, 310 1/2 Box Butte ave. Sunday services, 11 a. m., subject, "Doctrine of Atonement." Sunday school, 9:45 a. m. Wednesday evening services at 8:00. Reading room, 310 1/2 Box Butte, open every Wednesday afternoon from 2 to 4 o'clock.

EPISCOPAL CHURCH

Sermon on "The Passion of Our Lord, Friday evening at 7:30 p. m. Easter services. Communion service at 9 a. m. for children. Solemn Communion services and sermon at 11 a. m. No evening services.

Dean A. O. DODGE,

City Manager's Corner

(By N. A. KEMMISH)

There have been a few incidents lately where dogs have attacked children on the streets. Some dogs naturally have a quarrelsome disposition. There seems, however, to be a light epidemic of rabies, commonly known as mad dog, going about among dogs. As a matter of precaution we ask the owners of dogs to keep their dogs off the streets for a while. Parents should use reasonable care by cautioning their children about playing with the dogs. Any dogs found on the streets showing evidence of having this disease will be killed.

City ordinance No. 278 provides that "it shall be unlawful for any person to erect or add to any building within the corporate limits of the city to the value of \$100 or upwards without first having procured from the City Clerk a building permit." The charge for such permit is \$1.00. The penalty for not obtaining this permit before starting the erection of the building is from \$5 to \$100. There are quite a number of buildings under course of construction in the city for which no building permits have been secured. We take this occasion to call attention of owners and contractors that this ordinance must be lived up to.

There are also a number of houses which have been moved in from Antioch for which no moving or building permits have been taken out.

Phone Company a Heavy Loser In Sleet Storm

The sleet storm which swept over Nebraska, southeastern South Dakota, southwestern Minnesota and northwestern Iowa Monday night cost the Northwestern Bell Telephone company \$900,000.

Telephone service which was cut off between more than half of the towns in Nebraska because of the breaking down of the long distance lines, is rapidly being restored.

Sixty crews with about 1,200 men have been at work in the storm area since Tuesday. Twenty-seven crews have been working between Central City and Gothenburg in order to open the main line of telephone communication between the eastern and western part of Nebraska.

The storm covered an area of more

than 60,000 square miles extending from Worthington, Minn., to Valentine, Neb., on the north and from Wahoo to Gothenburg, Neb., on the south. The telephone company had about 18,000 poles down in Nebraska and 5,000 in the territory outside of the state. One hundred cars of poles and several cars of wire and pole line material have been hurried to the storm area from Chicago, Minneapolis and Kansas City and other points.

Fire Department Installs a New Set of Officers

The installation of new officers by the Alliance Volunteer Fire department was the occasion of a smoker, entertainment and dance Wednesday evening at the Armory. About one hundred people were present, including firemen, their ladies and friends.

Music was furnished for the evening by the Happy Four orchestra. Lloyd Thomas acted as toastmaster, the speakers including the following: Mayor R. M. Hampton, former mayors A. D. Rodgers and Penrose E. Romig, Editor George L. Burr, Jr., of The Herald, City Manager N. A. Kemmish, retiring president O. C. Moore, incoming president Ed Brennan, Dr. George J. Hand and Rev. B. J. Minort. Following the serving of the refreshments, dancing was engaged in.

The newly installed officers are as follows: president, Ed Brennan; vice-president, Charles Griffin; secretary, V. E. Byrne; treasurer, Fred Hayes; chief, Bud Schafer; trustees—three years, Roy Trabert; two years, George Keiser; one year, Ray Butler.

LET NEBRASKA AMUSE ITSELF

(Omaha Bee) Congratulations to the citizens of Aurora, who have just voted to bar traveling street carnivals. These tawdry exhibitions spread disease, vice and crime along their trail, in addition to carrying away money that might better be kept in the community for providing more rational forms of recreation.

Nebraska towns will be wise if they set about supplying their own amusement program. How this will be done is up to each community. In recent elections some endorsed Sunday baseball while others banned it, and the problem of Sunday shows also has been answered both ways. The question of weekly recreation is, however, the main one.

Few localities have enough freaks to put on their own street carnival, that is true. Nature has not provided enough midget families, bearded women, living skeletons and snake charmers to supply each place. It is questioned, however, if a better time all around is not to be had by encouraging local musical and dramatic talent. A home grown pageant picturing, to use a modern phrase, the wonders and beauties of the prairies, recalling the life of the pioneers and pointing the possibilities of the future will do more for any town than would an assemblage of cheap sideshows.

People should learn to play. It is to be regretted that the middle west has not developed its habits of recreation. The defeat in Fremont, of a public project for a swimming pool is regrettable from that standpoint, however praiseworthy from the standpoint of avoiding a bond issue.

Wholesome sport and honest entertainment given a fair field, will outstrip the degrading diversions, for the taste of the middle west is fundamentally sound.

THE DO GOODERS

(Nebraska City Press)

We have been importuned recently through the medium of some very carefully written circular letters to "come through" big for the Russians, who are said to be starving in such numbers that there is no time to bury them adequately.

We have written the soliciting committee that we shall not be able to aid them, in view of the suffering and starving in our own midst. Besides it is time for Europe to take care of her own, to stop fighting, to kill off the I. W. W.'s who are threatening the very peace of Europe and to put the Russians to work—for it was refusal to work that put them in their sad plight, not the loss of opportunity to work, as is the case in America.

The Do Gooders who are crying over the physical woes of Europe are refusing to aid thousands of ex-service men, who have already aided Europe to the extent of 50,000 dead in action and 250,000 disabled for life and until we have shown pity and charity toward our own people it does not behoove any of us to tear our shirts or gnash our teeth for those who dwell across the sea.

Some people have said it is "hard-hearted" to assume this attitude. It is ten times as cruel and ungrateful to refuse to lend needed assistance to those of our own people who deserve so much and have had so little. If there is any "foreign missionary-

ing" to be done by Americans, let it be done for the needy Americans first.

"Business is coming back," says an exchange dealing in matters economic and financial. Business is already back. Its not even "round the corner." It's here for the fellow who will go after it. But it will not call unless it is invited. The old methods of doing business will have a speaking acquaintance with Old Man Prosperity in 1922.
